All over New Zealand individuals and churches are reaching out to kids in their communities and helping them to personally encounter Jesus. As rewarding as this is, it can also be challenging and tiring with the next great inspiration a full marathon away.

This conference is designed to inspire and equip church leaders and kids workers, whether church or community based. We will look at the practicalities of helping 0-14's grow in Jesus and be released into their potential, at how to better grow kids ministries and lead teams. Come and enjoy a combination of worship, ministry and teaching to refresh and resource both you and your ministry.

Impacting children ultimately changes the nation. This workshop will look at our relevance to the local community and how to change the lives of children and families.

Seamless Transition

Extinction is our future if we leave our kids stranded. This workshop will investigate seamlessly moving kids through age relevant teaching into mature Christianity.

Are Kids Worth It - the Theology

God designed that kids should grow in him. Jesus modelled it. On the front line it costs, it's hard work, it needs to be valued. Come and learn what theology tells us about our role today.

Creative Teaching

God is creative. We are made in his image. It is possible to use other skills to promote the gospel! This workshop will enhance what you're doing and equip and inspire you to add more skills to your resource cupboard.

Working Volunteers

Kids ministry doesn't operate in a bubble. It's the real world and that means volunteers. This session will consider finding, growing and keeping volunteers by creating an environment that is professional and nurturing.

Children's Worship

Inspiring worship, biblical teaching and life changing ministry isn't just the domain of adults. Children's ministry is called to excellence in worship. Come and learn how to develop inspiring, integrated worship in your kid's programmes.
